

Neocate Junior

A nutritionally complete, amino acid based, powdered formula for children over the age of 12 months, supplemented with prebiotic fibres

Features

- Hypoallergenic
- Nutritionally complete, suitable as a sole source of nutrition
- Made to 1kcal/ml at recommended concentration (21.8% w/v)
- Milk and soy protein free
- Contains 0.4g prebiotic fibres (inulin and fructo-oligosaccharide) per 100ml to help promote digestive health
- Vanilla flavour
- n-6:n-3 ratio = 4:1

Indications

- For the dietary management of children (aged over 12 months) with cow and soy milk protein allergy, multiple food protein intolerance, eosinophilic esophagitis, short bowel syndrome and/or other medical conditions where an amino acid based product is recommended.

Contraindications

- Use under strict medical supervision
- Not for intravenous use

Age restrictions

- Not suitable for infants under 1 year of age

Important Notice

- The quantity of feed should be determined by a clinician or dietitian only and is dependent on the age, bodyweight and medical condition of the patient
- Always seek the advice of a healthcare professional before use

Ordering Information

Neocate Junior	Presentation	Nappi Code	Units per carton
Vanilla	400g Tin	721905001	4

Directions for Use

- Add 4 scoops (scoop weight 8.2g) of Neocate Junior Vanilla to 120ml of water to yield a final volume of 150ml at the recommended feed concentration (21.8% w/v)
- Follow preparation instructions as stated on the can or as instructed by healthcare professional
- Shake or stir formula immediately before use
- Feed prepared in advance must be cooled, stored in the refrigerator and used within 24 hours of preparation
- When used as a tube feed, the hang time should not exceed 4 hours
- Do not boil formula and do not use a microwave oven to prepare or warm formula

Storage

- Store unopened cans in a cool, dry place
- Once opened, reseal can and store in a cool, dry place (not a refrigerator) and use within one month

A food for special medical purposes; to be used under strict medical supervision.
