

# XMTVI Maxamaid

A methionine, threonine and valine-free, low isoleucine, fat-free powdered supplement

## Features

- 309 kcal/100 gr powder
- 25g protein equivalent per 100g powder
- Fibre Free
- Contains other essential and non-essential amino acids, carbohydrate, vitamins, minerals and trace elements
- Unflavoured

## Indications

- For the dietary management of proven methylmalonic acidaemia or propionic acidaemia

## Precautions

- Not suited for metabolic disorders other than methylmalonic acidaemia or propionic acidaemia or as a supplement for individuals who do not have methylmalonic acidaemia or propionic acidaemia.
- Use under strict medical supervision

## Contraindications

- Not for intravenous use

## Age restrictions

- Suitable for older children from 1 to 8 years of age
- Not suitable for infants under 1 year of age

## Important Notice

- This product must be supplemented with natural protein and other nutrients in medically prescribed quantities to supply the methionine, threonine, valine, isoleucine and general nutritional requirements of the patient.
- Not intended for use as the sole source of nutrition

## Ordering Information

XMTVI Maxamaid	Presentation	Code	Units per carton
Unflavoured	500g tin	709480001	6

## Directions for Use

- The quantity of feed should be determined by a clinician or dietitian only and is dependent on the age, bodyweight and medical condition of the patient
- Each level scoop of XMTVI Maxamaid contains approximately 35g of powder
- The recommended feed dilution is 1 to 5 i.e. 100g XMTVI Maxamaid plus 500ml water. A lower concentration may initially be required until recommended concentration is tolerated

## Storage

- Store in a cool, dry place. Once opened, use within one month. Always replace container lid after use. Once reconstituted, store in a refrigerator and use within 24 hours. Stir prior to use.

A food for special medical purposes; to be used under strict medical supervision.
